## ABOUT US

**CERAVA** is a specially designed edition of decorative sanitaryware from the house of **Eleganza Bathware Pvt. Ltd.** – a name that has defined elegance and innovation since 2012. With a growing and dominant presence in the market, **Eleganza** is celebrated for its unwavering commitment to quality craftsmanship, refined aesthetics, and customer-centric design philosophy.

The creation of **CERAVA** was not a coincidence but the result of a rigorous research and development journey spanning months of experimentation and refinement. From the careful selection of raw materials to the final firing process, every detail was studied, perfected, and optimized. Through this process, we curated the finest blend of designs, dimensions, and finishes, ensuring a pre-tailored and customizable solution that resonates with every modern space.

As part of the **Eleganza** legacy, we continue to evolve – staying ahead through continuous innovation, trend awareness, and a relentless pursuit of excellence. When you choose **CERAVA**, you are not merely selecting a basin – you are choosing the best among the rest, a symbol of timeless design, superior quality, and enduring trust.

*Refined Design  
Timeless Elegance*

Vision in Design.  
Mission in Excellence.

## VISION

To redefine modern bathroom living through innovative designs, superior craftsmanship, and sustainable excellence – creating spaces that reflect elegance, comfort, and the art of water in motion.

## MISSION

To deliver world-class sanitaryware that blends aesthetics with performance. We strive to craft every product with precision, durability, and purpose – ensuring that every flow, curve, and finish reflects our commitment to quality, innovation, and customer satisfaction.

*Refined from  
Earth's Essence*

## THE CERAVA WAY

Art and engineering coexist — naturally,  
effortlessly, beautifully.  
Perfection, tested by fire. Trusted by design.

At **CERAVA**, quality is not an inspection — it is a  
philosophy.  
From the selection of raw materials to the final  
polish, every process reflects discipline, precision,  
and pride.  
Each basin is crafted from high-grade ceramic  
compounds, refined for strength, purity, and  
smoothness.

Our products undergo multiple quality checks —  
ensuring flawless glaze, consistent dimensions,  
and enduring surface finish.

Every detail matters — the edge, the glaze, the  
sound of a tap on porcelain — all tested to meet  
international standards of excellence.  
The result: a basin that feels as good to touch as it  
looks to behold.

Natural Elegance

*Earth Inspired  
Organic Textures*

Less, done  
beautifully.

## CRAFTSMANSHIP

Every CERAVA basin is shaped with intention. Each curve, line, and edge is guided by steady hands and quiet precision. Our artisans blend tradition with technology — ensuring every piece is balanced, pure, and enduring. What begins as raw clay becomes a form of calm perfection, refined through fire and touch.

## ARTISTRY

At CERAVA, design is emotion in form. We believe beauty lives in simplicity — in harmony, proportion, and restraint. Each silhouette is drawn to evoke a sense of stillness, turning function into poetry. From soft matte tones to reflective finishes, every creation speaks in quiet elegance.

*Artisans Blend  
With Technology*

## PROCESS & QUALITY

Distinct in design.  
Durable in form.  
Defined by **CERAVA**  
craftsmanship.

Each **CERAVA** basin begins with the finest selection of raw materials — chosen with care and precision to ensure purity, strength, and consistency

.Our design experts conduct multiple trials of form, proportion, and surface pattern before finalizing the perfect blend of design and dimension. Once approved, every basin undergoes an intricate kiln-firing process at over 800°C, where the artistic design sheet fuses seamlessly with the ceramic surface.

Unlike conventional dipping methods used by many, **CERAVA** follows an advanced re-firing process — a technique that ensures superior print quality, long-lasting adhesion, and color depth that endures for years. This controlled 96-hour process brings unmatched refinement, strength, and brilliance to every piece.

We stand ahead with our **CERAVA** Edition, where each product reflects exceptional craftsmanship and high-quality standards. Our Marbilano and Moroccan Series come with a lifetime warranty\* and are scratchproof, offering enduring beauty and performance.

Inspired by the elegance of marble textures and the timeless artistry of Moroccan design, these basins are crafted to bring sophistication and character to any space. Every piece stands out for its unique pattern, smooth surface, and easy-to-clean finish — available in a range of sizes and styles to complement modern interiors.

Before reaching you, every basin passes through rigorous quality checks and is carefully packaged to arrive in flawless condition — ready to enhance your space with its timeless charm.

Fired In Precision  
Forged In Patience

## THE CERAVA PROMISE

At **CERAVA**, we don't just create basins — we craft enduring statements of design and trust. Every product carries the mark of precision, artistry, and uncompromising quality that defines our name.

From concept to completion, each stage reflects a commitment to excellence — tested, refined, and perfected for your peace of mind.

### BUILT TO LAST

Each CERAVA basin is engineered for strength, stability, and long-term performance. Fired at temperatures exceeding 800°C, our ceramics achieve superior density and durability — resistant to scratches, stains, and color fading. Our glaze technology ensures a smooth, non-porous surface that remains radiant through years of use.

### WARRANTY & CARE

We stand behind every product we make. All CERAVA luxury basins come with a manufacturer's warranty covering structural integrity and surface finish under normal residential use. This warranty is our promise that your chosen basin — a blend of art and engineering — will continue to perform beautifully.

To preserve its perfection:

- ▶ Clean regularly with mild, non-abrasive solutions.
- ▶ Avoid harsh chemicals or metal brushes.
- ▶ Wipe dry after use for lasting sheen.

### OUR LEGACY OF EXCELLENCE

From the first sketch to the final polish, every CERAVA creation is guided by our core belief — that beauty must endure. We take pride in creating basins that don't just complement spaces but complete them — with elegance, craftsmanship, and care that lasts generations.

\*For enduring brilliance, avoid harsh cleaning chemicals. Use soft detergent and gently wipe with a dry cloth to preserve its long-lasting sheen. Images in this catalogue are for creative purpose only. Actual product may vary. Sizes are approximately.
